# Introduction

The 2023-2024 Five Year Highway Improvement Plan maps out government's approach to repairing and maintaining the province's 23,000 kilometres of roads and highways and 4,100 bridges.

The plan outlines major highway and road projects, repaving, major bridge replacements, capital maintenance, and infrastructure work the province plans to pursue year by year, over the next five years.

Sharing the specific plans for road improvement in the Five Year Highway Improvement Plan gives private companies better opportunity to prepare for the more than 150 upcoming highway improvement projects in 2023–2024. It also helps to inform Nova Scotians about the improvements being made in their communities.

## New Major Projects

The department is investing more than \$583 million towards six new major construction projects over seven years. The projects include:

- Highway 103 Argyle Interchange (Exit 32 and 32A)
- Highway 103 Exit 6 to Exit 7 - Twinning
- Highway 103 Exit 7 to Exit 8 - Twinning
- Highway 104 Taylors Road to Paqtnkek - Twinning
- Highway 107 Burnside to west of Loon Lake -Twinning
- Tancook Ferry Infrastructure Development

This investment also includes access improvements for non twinned 100-series highways. That work involves improving intersections, adding passing lanes, and turning lanes as well as roundabouts.

# Ongoing Expansion of Twinned Highways

The department continues to advance its ambitious plan to twin highways at four locations around the province:

- Highway 104: Sutherlands River to Antigonish (38 kilometres)
- Highway 101: Three Mile Plains to Falmouth, including the Windsor Causeway (9.5 kilometres)
- Highway 103: Tantallon to Hubbards (22 kilometres)
- Highway 107: Four lane Sackville-Bedford-Burnside Connector (9 kilometres)

# Ongoing and Recently Completed Projects

Construction will continue on the Highway 102 Aerotech Connector project. The Bridgewater interchange project on Highway 103 will also continue this year along with the multi-year construction of roundabouts and upgrades along Kings Road in Sydney.

Construction of new rest stops on Highway 104, between Exits 8 and 10, near the Cobequid Pass toll plaza, will be completed in 2023.

Work to convert the Port Hastings rotary to a roundabout will continue into 2023.

Work is ongoing on other intersection improvement projects including the Trunk 10 and MacCullough Road intersection; the Route 333 left-turning lane intersection at Terrance Bay Road and Sandstone; and the widening of Larry Uteck Boulevard from Highway 102 Exit 2B off-ramp to Starboard Drive.

# Bridges

Nova Scotia has 4,100 bridges as part of the provincial road network. Bridges are an integral part of the road network; the provincial government has once again doubled the funding for the Bridge Program from \$30 million to \$60 million. Funding for the program is used to repair and replace existing structures for Nova Scotians. This enables a proactive approach to expand the rehabilitation and replacement of existing structures resulting in improved safety and reduced maintenance costs.

Hwy 104 Middle Brook Bridges

# Gravel Roads

Nova Scotia has more than 8,400 kilometres of gravel roads and they make up 35 per cent of the provincial road network. In recognition of their importance, the provincial government continues to invest in the Gravel Road Capital program. The budget has increased from \$20 million to \$40 million.

Funding for the program is used to improve existing gravel roads in rural Nova Scotia. It enables the proactive rebuilding to improve the structure and drainage, resulting in longer-lasting roads, improved safety, and reduced maintenance costs.

## Pavement Alternatives

The department strives to use fiscally responsible alternatives to extend the life cycle of existing road infrastructure.

Maintaining most of all public roads in the province (90 per cent) falls to the Department of Public Works. The cost per kilometre on average is \$400,000 to rehabilitate our road infrastructure, and an average of \$700,000 or more to upgrade a trunk highway, and \$5–\$7 million to twin a highway.

While severely damaged roads will continue to be addressed, a portion of our highway improvement budget will be set aside to help improve paved roads before they become too damaged and need more costly repairs. The approach is ensuring that funding is used more efficiently and effectively, and it is more sustainable in the long term.

Surface treatment techniques can extend the life of asphalt, improve smoothness, reduce potholes, and decrease rutting and cracking. Roads stay smoother and safer at a much lower cost than by allowing them to deteriorate to the point of needing full rehabilitation.

## Storm Damage Repair

Nova Scotia continues to be hit with more intense and frequent storms causing extensive damage to infrastructure including roads and bridges. The department repaired most of the storm damage using more resilient infrastructure to better protect our roads and bridges from future storms. The department continues to look at ways to better build and manage infrastructure to protect it from future storms.

# Economic Impact

The road building industry in Nova Scotia is a large source of jobs, creating more than 6,000 direct and 3,000 indirect positions every year.

The total highway capital budget for 2023–2024 is expected to approach \$500 million.

Capital funding for highway construction and rehabilitation currently comes from three sources:

**1. Provincial** – Highway funding in Nova Scotia includes all revenues collected through provincial fuel taxes and registration of motor vehicles, as well as other funding provided by the provincial government.

Almost every dollar from Registry of Motor Vehicle (RMV) fees and the fuel tax goes back into provincial roads. Over the past four years, the province has invested an additional \$449 million beyond what was collected in RMV fees and fuel tax.

**2. Federal** – Federal funding to support highway improvement projects is provided by the New Build Canada Fund, the National Trade Corridors Fund, Investing in Canada Infrastructure Program, and the Disaster Mitigation and Adaptation Fund. The province continues to work with its federal partners to take advantage of opportunities for support where possible.

**3. Municipal** – Municipalities contribute on cost-shared projects in their areas.

Hwy 107 – Drysdale Ave Overpass

# Projects Planned for 2023-24

## Major Construction Projects for 2023-24

	Km	County	Type
<b>Highway 101:</b> Three Mile Plains to Falmouth Twinning (Multiple Year Project)		Hants	100 Series Expansion & Other Major Road Upgrades
<b>Highway 102:</b> Aerotech Connector (Multiple Year Project)		Halifax	100 Series Expansion & Other Major Road Upgrades
<b>Highway 103 Twinning:</b> Ingramsport to Hubbards (Multiple Year Project)		Halifax	100 Series Expansion & Other Major Road Upgrades
<b>Highway 103:</b> Bridgewater Interchange (Exits 12-13) (Multiple Year Project)		Lunenburg	100 Series Expansion & Other Major Road Upgrades
<b>Highway 104 Twinning:</b> Sutherlands River to Antigonish (Multiple Year Project)		Pictou	100 Series Expansion & Other Major Road Upgrades
<b>Highway 104/Route 344:</b> Aulds Cove Intersection Realignment, access improvements (Multiple Year Project)		Antigonish	100 Series Expansion & Other Major Road Upgrades
<b>Highway 105:</b> Turning Lane at Tobin Road/Highway 105 Intersection, access improvements	0.4	Cape Breton	100 Series Expansion & Other Major Road Upgrades
<b>Highway 105/104:</b> Port Hastings, Rotary Upgrades, access improvements (Multiple Year Project)		Inverness	100 Series Expansion & Other Major Road Upgrades
<b>Highway 107:</b> Sackville-Bedford-Burnside Connector (Multiple Year Project)		Halifax	100 Series Expansion & Other Major Road Upgrades
<b>Highway 107:</b> Exit 17 to 18 Wildlife Mitigation, access improvements		Halifax	100 Series Expansion & Other Major Road Upgrades
<b>Highway 107:</b> Exit 18 to 19 Passing Lanes, access improvements		Halifax	100 Series Expansion & Other Major Road Upgrades
<b>Highway 107:</b> Exit 20 William Porter Connector, access improvements		Halifax	100 Series Expansion & Other Major Road Upgrades
