Experience Agriculture 2012

A Workshop for Science 10 and
Agriculture/Agri-food 11
Teachers in Nova Scotia

March 1 & 2, 2012
Truro, Nova Scotia

Experience Agriculture 2012

The Nova Scotia Department of Agriculture and the Nova Scotia Agricultural College are pleased to offer **Experience Agriculture 2012** for teachers of *Science 10* and *Agriculture/Agri-food 11* in Nova Scotia.

Join us on the College campus for a broad look at the dynamic agricultural industry in Nova Scotia. Teachers will learn some of the science behind food production, career opportunities available to those considering agriculture as a profession, as well as the future of our food system.

See first-hand how programs, research, and education are helping our industry work towards a future that is socially responsible, environmentally ethical and economically sustainable for generations to come.

Dates and Times

Thursday, March 1 (beginning at 6:30 pm) to Friday, March 2, 2012

A detailed schedule will be available upon registration.

For directions, visit <http://nsac.ca/directions/> or contact Continuing Education by at 902-893-6666 or cde@nsac.ca.

Tuition Fee

\$30.00 + \$4.50 HST = \$34.50

Pre-registration is required.

Please complete and fill in the information on the form on the back of this brochure, and return to Continuing Education no later than **Friday, February 17, 2012. Seating is limited so register early!**

Growing Forward is a commitment by Canada's federal, provincial and territorial governments to support the development of a profitable, innovative agri-food sector that is adept at managing risk and responsive to market demands.

About the Program

Participants can expect a full schedule that will provide insight into the science, business and social impacts of agriculture in Nova Scotia. They will receive ready to use lessons to share their experiences with their students.

Teachers will learn about:

- Cutting edge research
- Exciting careers in agriculture
- The future of our food system

Hands-on training topics include:

- Plant propagation
- Livestock health
- Soil science

The province's Agricultural Education office works with the school system to provide agricultural educational programming.

Continuing Education delivers lifelong learning opportunities to assist you in achieving your personal, professional and business goals. Our courses, programs and custom offerings are your guide to opportunity.
