

# Nova Scotia School Milk Program – Program Support

## **Program Support...**

The success of the Nova Scotia School Milk Program is achieved through the commitment and support by teachers, principals and school volunteers.

The dairies in Nova Scotia support the Nova Scotia School Milk by their commitment to province-wide distribution.

The Nova Scotia dairy industry, through Dairy Farmers of Canada, supports the Program in the schools through the delivery of nutrition programs and educational materials. To inquire about the availability, please contact *Dairy Farmers of Canada* at:
