

Did you know...

that driving 120 km/hr can burn up to 30% more fuel than driving 90 km/hr?

or

that idling for more than 10 seconds can use more fuel than restarting the engine in most vehicles?

Want to learn more?

DriveWiser offers a fun, interactive presentation that raises issues many drivers face today including:

- Ways to deal with rising gas prices
- Impacts of driving on air quality and climate change
- Hands on tools to help green your driving habits

DriveWiser can come to a classroom or boardroom near you!

Book your **FREE** presentation today! **902-420-8802** or **patterson@clean.ns.ca.**
