

# On-Line Survey

## Owners of Homes and Condominiums Built in 2000 or Later

**Do you  
own a new  
house or condo  
unit that was built in  
2000 or later?**

**If so, we welcome your participation in an  
on-line home-owner protection survey.**

The survey is part of the province's review of new home and condominium construction standards and warranty programs.

**You may participate in the home-owner protection survey  
on-line by visiting: [www.gov.ns.ca/snsmr](http://www.gov.ns.ca/snsmr)**

*The survey is being conducted by Novus Consulting Group Ltd., an independent consultant leading the homeowner protection review for the province.*

*Information gathered from the survey will be used to help develop a discussion paper, which will form the basis of broad industry and public consultations this spring.*

**Service Nova Scotia  
and Municipal Relations**
