

DETOUR NOTICE

Ingramport Area

The construction of a new bridge at Ingram River will result in a temporary detour for the residents of Ingram River Lane (this detour is intended for only the residents, their guests, service and emergency vehicles).

Ingram River Lane will be temporarily extended at the north end to connect with the St. Margarets Bay Area Rails-to-Trails trail. Traffic will be detoured west along the trail, south along Kiely Lake Road, and then reconnect with Trunk 3. This detour is anticipated to be required for approximately four weeks.

The trail is still open to regular trail traffic, however, all users should be aware of extra traffic and caution should be taken to ensure the safety of all trail users.
