

Hunters make the Difference

Government studies cannot replace the valuable information hunters provide when they submit report cards and biological samples.

Depending on which animals you are hunting, there are different reporting requirements. Some programs require hunter reporting by law, others ask hunters to contribute voluntarily. Failure to comply with mandatory reporting or specimen submitting requirements may result in enforcement action.

Hunting and furharvesting report cards are available online at; <http://www.gov.ns.ca/natr/wildlife/web/observerhvt.htm> and in the 2009 Nova Scotia Hunting and Furharvesting Summary of Regulations booklet. Refer to pages 56/57 of the Regulations booklet for more information or online at www.gov.ns.ca/natr/hunt/regulations/

A no-kill report is just as important as reporting a successful hunt.

Remember, effective management of hunted species requires the participation of hunters.
