

Questions You May Ask Your Family Doctor, Nurse Practitioner, or Specialist about Your Wait

- Why do I need the test/treatment?
- What's involved in getting the test/treatment? What are the pros and cons?
- When will I receive this test/treatment?
- Will my condition change while I wait? If it does, what should I do?
- Is it possible to get this test/treatment in another place with a shorter wait?
- What happens when I receive care in another district? What about my follow-up care?
