Nova Scotia Department of Fisheries and Aquaculture *Fisheries and Coastal Resources Act, S.N.S. 1996, c. 25*

The Nova Scotia Department of Fisheries and Aquaculture invites members of the public to provide written comment on applications for Aquaculture Licences and Leases. Selected details of the application(s) are as follows, with further information also found at <http://novascotia.ca/fish/aquaculture/public-information/>.

Future Seafoods Inc.
AQ#1351
Amendment Application

Location: Caribou Harbour, Pictou County
Type: Marine
Size: 17.25 HA
Current Cultivation Method: Bottom shellfish without gear
Current Species: American oyster
Proposed Amendment:

1. Authorize Bottom Cultivation with Gear Method
2. Authorize Suspended Shellfish Cultivation
3. Add additional species – Bay quahog (*Mercenaria mercenaria*)
4. Change Site Boundaries (no increase in size)

Submission Period: Thursday June 24, 2021 to Friday, July 23, 2021

Summary of Application: Aquaculture Site No. 1351 has been an issued aquaculture site since 2010. The proposed boundary amendment will not result in an increase in the size of the site. The purpose of this amendment is to relocate the portion of the site that is not useable (due to depth and presence of marine plants) to the adjacent area that is deemed more viable to the growth of shellfish, through the use of both suspended gear and bottom cultivation with gear. Bottom cultivation without gear would continue in some areas of the site.

Michael A. MacIntosh
AQ#1360
Amendment Application

Location: Merigomish Harbour, Pictou County
Type: Marine
Size: 7.91 HA
Current Cultivation Method: Bottom cultivation without gear
Current Species: American oyster, Bay Quahog

Proposed Amendment: Authorize bottom shellfish cultivation with gear method and authorize suspended shellfish cultivation method

Submission Period: Thursday June 24, 2021 to Friday, July 23, 2021

Summary of Application: AQ#1360 Licence and Lease were issued to Michael A. MacIntosh on September 12, 2011 for a ten year term from August 1, 2012 to August 1, 2022. A review of the applicant's Farm Management Plan indicated that the applicant was conducting bottom shellfish aquaculture with gear, without the appropriate approvals in place for this type of aquaculture. The Farm Management Plan was conditionally approved for a six-month period, during which time the applicant was required to submit a gear amendment application for review. The intent of the amendment application to "authorize bottom shellfish cultivation with gear method" is for the applicant to become fully compliant with all relevant regulations and licensing and leasing requirements related to bottom shellfish aquaculture with gear. Should the application not be approved, the applicant will be required to adhere to the current licensing and leasing provisions in place and ensure the removal of any unauthorized gear.

The applicant has also requested the amendment to Licence and Lease AQ#1360 to authorize the Suspended Shellfish Cultivation method for American oyster and Bay quahog, and currently is not conducting this cultivation method.

AQ#1380
Amendment Application

Location: Caribou Harbour, Pictou County

Type: Marine

Size: 11.47 HA

Current Cultivation Method: Bottom shellfish without gear

Current Species: American oyster

Proposed Amendment:

1. Authorize Bottom Cultivation with Gear Method
2. Authorize Suspended Shellfish Cultivation
3. Change Site Boundaries (no increase in size)

Submission Period: Thursday June 24, 2021 to Friday, July 23, 2021

Summary of Application: Aquaculture Site No. 1380 has been an issued aquaculture site since 2014. The purpose of this amendment is to relocate the portion of the site that is not useable (due to heavy marine traffic that is reportedly creating too much wave action to allow sustainable development) to the adjacent area that is deemed more viable to the growth of shellfish, through the use of both suspended gear and bottom cultivation with gear. Bottom cultivation without gear would continue in some areas of the site.

Amendment Application

Location: Tracadie, West Arm, Antigonish County

Type: Marine

Size: 8.16 HA

Current Cultivation Method: Bottom shellfish without gear

Current Species: American oyster

Proposed Amendment: Authorize Bottom Shellfish with Gear Cultivation Method

Submission Period: Thursday June 24, 2021 to Friday, July 23, 2021

Summary of Application: Aquaculture Site No. 1386 has been an issued aquaculture site since November 1, 2014. A review of the previous applicant's Farm Management Plan indicated that the previous applicant was conducting bottom shellfish aquaculture

with gear, without the appropriate approvals in place for this type of aquaculture. The Farm Management Plan was conditionally approved on September 7, 2018 for a six-month period, during which time the previous applicant was required to submit a gear amendment application for review. The intent of this amendment application is for the current applicant to become fully compliant with all relevant regulations and licensing and leasing requirements related to bottom shellfish aquaculture with gear.
