<p>Andrew Thompson, Jeremy Webb AQ#1363 Amendment Application</p>	<p>Location: Caribou Harbour, Pictou County Type: Marine Current Size: 5.00 HA Current Cultivation Method: Bottom cultivation without gear Current Species: American oyster Proposed Amendment: Authorize cultivation method – Bottom shellfish with gear method Submission Period: October 14, 2021 to November 12, 2021 Summary of Application: Aquaculture Site No. 1363 has been an issued aquaculture site since May 21, 2014. At the time of initial issuance, the Aquaculture Licence and Lease Regulations did not distinguish between different shellfish aquaculture cultivation methods. As part of the 2015 amendments to the Aquaculture Licence and Lease Regulations, Bottom shellfish without gear and Bottom shellfish with gear were defined as separate cultivation methods. As part of a larger initiative to align existing aquaculture methods with the updated regulatory language, the intent of this amendment application is for the applicant to become fully compliant with all relevant regulations and licensing and leasing requirements related to bottom shellfish aquaculture with gear. Such requirements will include marking the site in accordance with Transport Canada requirements. Furthermore, the standard licence and lease documents for shellfish aquaculture sites conducting bottom cultivation with gear allow for continued access to the aquaculture site by the general public for recreational activities; however, the general public are not permitted to carry out American oyster harvest, enhancement of husbandry activities on aquaculture sites.</p>
