Polling Districts Order: Municipality of the District of West Hants

Order dated July 11, 2016
made by the Nova Scotia Utility and Review Board
pursuant to Section 369 of the *Municipal Government Act*

Order**M07207****Nova Scotia Utility and Review Board****In the matter of the *Municipal Government Act***

- and -

In the matter of an application by the **Municipality of the District of West Hants** respecting the number of councillors and the boundaries of polling districts

Before: Murray E. Doehler, CPA, CA, P.Eng., Member

Order

An application having been made by the Municipality of the District of West Hants (“Municipality”) pursuant to s. 369 of the *Municipal Government Act* and the Board having issued its written decision on April 13, 2016;

And whereas by Order dated April 22, 2016, the Board set the number of councillors and polling districts at ten and referred the matter back to the Municipality to set the boundaries of the polling districts to comply with the findings in the decision;

And whereas the Municipality appealed the Board’s April 13th decision to the Nova Scotia Court of Appeal;

[And] whereas on June 16, 2016, the Court of Appeal dismissed the Municipality’s appeal;

And whereas on June 29, 2016, the Municipality filed written descriptions for the 10 polling districts, with the descriptions being the same as the existing polling districts of the Municipality, together with the additional district for the former Town of Hantsport;

It is hereby ordered that:

1. The number of polling districts for the Municipality of the District of West Hants is set at ten;
2. The number of councillors is set at ten;
3. The descriptions of the 10 polling districts are set out in Schedule “A”, attached to and forming part of this Order;

And it is further ordered that all provisions of the *Municipal Government Act* and the *Municipal Elections Act* and any other Acts of the Province of Nova Scotia applying to the preparation for and holding of the regular election of councillors of the Municipality in the year 2016 will be complied with as if the above-noted changes had been made on the first day of March, 2016, but for all other purposes, such changes shall take effect on the first day of the first meeting of the Council after the election of councillors for the year 2016.

Dated at Halifax, Nova Scotia this 11th day of July, 2016.

sgd: *Elaine Wagner*
Clerk of the Board

Schedule “A”

Polling District 1: Summerville–Kempt

District 1 - covers the most northerly portion of the Municipality of West Hants extending from the East Hants boundary at the Walton River along the shores of the Minas Basin and the Avon River to the former township boundary between Kempt and Newport. The majority of settlement and development in this district is located along Highway 215, which generally follows the shoreline and includes the communities of Summerville, Kempt Shore, Cheverie, Bramber, Cambridge and Pembroke. The interior of the district is mainly undeveloped and forested and includes a number of small lakes including Woodward Sanford Lake and Wade Lake. The municipal landfill site located at 1379 Walton Woods Road in the community of Cogmagun is located in District 1.

Polling District 2: Avondale–The Burlingtons

District 2 abuts the southern boundary of District 1 and continues south along the shoreline of the Avon River as far as the St. Croix River. The St. Croix River forms the southern boundary of the district until it meets the Herbert river, the boundary continues to the northeast along Herbert river to the intersection with Highway 215 and then northerly along Highway 215 to the Kennetcook River. The Kennetcook River then acts as the boundary of the district until it intersects the East Hants boundary. The rivers that define this district—the St. Croix, the Kennetcook and the Avon—are large tidal rivers and some areas of shoreline have been dyked to prevent flooding. The majority of development in this area is located along roads that roughly follow the shorelines of these rivers. The communities of Upper Burlington, Centre Burlington and Lower Burlington are located on Highway 215. The communities of Poplar Grove, Newport Landing, Avondale, Belmont and Mantua are located on the Avondale peninsula which is surrounded by the Avon, St. Croix and Kennetcook Rivers.

Polling District 3: Brooklyn–Scotch Village

District 3 located directly southeast of District 2 covers a relatively small portion of the municipality. The Kennetcook River forms the northern boundary of the district, the municipal boundary with East Hants acts as the eastern boundary, while the Meander River and a series of property lines create the southern boundary. Development in District 3 is relatively concentrated in and around the village of Brooklyn which acts as a service centre for the surrounding area. Other communities include Woodville, McKay Section, Ashdale and Greenhill. Smiley’s Provincial Park is located within this district.

Polling District 4: St. Croix–Ellershouse–Newport Corner

District 4 is one of the largest of the nine [*sic*] polling districts covering the southeastern portion of the municipality as far as the boundaries of Halifax Regional Municipality and East Hants. Development in District 4 is concentrated along the Highway 1 corridor through the communities of Ardoise and Ellershouse. Most of the southern part of the district is undeveloped and characterized by large lakes including Panuke, Big St. Margaret’s Bay, Five Mile and Big and Little Pine. The St. Croix First Nations Reserve is located in the interior of [the] district. The eastern boundary of this district runs down the middle of Lake Panuke and the St. Croix River.

Polling District 5: Wentworth–Newport Station–Newport Corner

District 5 comprises a relatively small geographic area of the Municipality. It is centrally located directly south of District 2 and 3 and north of District 4. District 5 extends east of the Windsor town limits from Wentworth Creek to Newport Corner and includes the communities of Sweets Corner, Gypsum Mines, Newport Station and St. Croix.

Polling District 6: Three Mile Plains

District 6 is the second smallest polling district in geographic size and lies directly south of the Town of Windsor. To the east the district is bounded by Highway 101 and District 5. To the south the district is bounded by Highway 14 and District 7. This district includes the more densely populated communities of Garlands Crossing, Curry's Corner and a portion of Three Mile Plains serviced with central sewer and water. Planning documents establish the Three Mile Plains Growth Centre where new residential and commercial development can be accommodated in the areas fully serviced with municipal sewer and water.

Polling District 7: Three Mile Plains–Martock

District 7 lies directly south of Districts 6 and 5. Windsor Back Road and Highway 14 form the main northern and western boundaries of the district. District 7 incorporates part of the serviced community of Three Mile Plains south of the Windsor Back Road including the more developed parts of Panuke and Mountain Roads, as well as portions of Martock and Windsor Forks. Both the Ski Martock recreation area and the Mills Lakes Watershed area are located in District 7. This district also includes the communities of Mill Section, Wile Settlement and Upper Vaughn as well as the developments around Armstrong and Falls Lakes.

Polling District 8: Upper Falmouth–Mount Denson

District 8 comprises the southwestern part of the municipality and is the largest district based on geographic area. District 8 is bounded by Kings County to the northwest and Lunenburg County to the southwest and Districts 9, 6 and 7 to the east. The northern part of the district wraps around the former Town of Hantsport and includes the communities of Hants Border and Bishopville and Mount Denson. Vaughan, Leminster, Upper Falmouth and the western portion of Falmouth are also included in this district.

Polling District 9: Falmouth

District 9 is one of the smallest polling districts geographically and one of the most densely populated areas of the Municipality. Falmouth, a predominantly residential community[,] is located across the Avon River from the Town of Windsor. The Avon River causeway provides a link between these two communities. Falmouth is recognized in planning documents as a growth area and much of this district is serviced with municipal sewer and water. This district is bounded on the east by the Avon River and on the north, west and south by District 8.

Polling District 10: Hantsport

District 10 is the smallest polling district geographically in West Hants and follows the boundaries of the former Town of Hantsport. It is bounded on the southeast by the Halfway River[,] on the northeast by the Avon River, on the northwest by the Kings County boundary line and [on] the southwest by a surveyed line established by Brian Alexander, Provincial Land Surveyor in 1951 and ratified by the Warden and Clerk of the Municipality of West Hants and the Mayor and Clerk of the Town of Hantsport that same year.

N.S. Reg. 145/2016

Prescribed Petroleum Products Prices

Order dated July 15, 2016
made by the Nova Scotia Utility and Review Board
pursuant to Section 14 of the *Petroleum Products Pricing Act*
and Sections 16 to 19 of the *Petroleum Products Pricing Regulations*

Order**M07560****In the matter of the *Petroleum Products Pricing Act*****- and -****In the matter of prescribing prices for petroleum products
pursuant to Section 14 of the *Petroleum Products Pricing Act* and
Sections 16 to 19 of the *Petroleum Products Pricing Regulations*****Before:** Murray E. Doehler, CPA, CA, P.Eng., Member

Whereas the purpose of the *Petroleum Products Pricing Regulations* is to ensure just and reasonable prices for specified petroleum products taking into consideration the objectives of preserving the availability of such products in rural areas, stabilizing prices of such products and minimizing the variances in prices of such products across the Province;

And whereas the Nova Scotia Utility and Review Board (“Board”) considered the manner in which it would proceed to set petroleum product prices in its decision, 2006 NSUARB 108, issued on October 16, 2006;

And whereas the Board revised the retail margin and transportation allowance effective January 6, 2012, in its decision, 2011 NSUARB 181, issued on November 23, 2011;

And whereas the Board revised the wholesale margin effective January 4, 2013, in its decision, 2012 NSUARB 213, issued on December 12, 2012;

And whereas the average of the average of the daily high and low reported product prices (in Canadian cents) for the week ended July 13, 2016, are:

Grade 1 Regular gasoline	46.2¢ per litre
Ultra-low-sulfur diesel oil	47.8¢ per litre

Now therefore the Board prescribes the benchmark prices for petroleum products to be:

Gasoline:	
Grade 1	46.2¢ per litre
Grade 2	49.2¢ per litre
Grade 3	52.2¢ per litre
Ultra-low-sulfur diesel oil	47.8¢ per litre

And now therefore the Board has determined, based on historical data regarding price changes and to achieve revenue neutrality, it is appropriate to apply, and the Board so orders, forward averaging corrections of:

Gasoline:	minus 1.1¢ per litre
Ultra-low-sulfur diesel oil:	minus 0.7¢ per litre

And now therefore the Board prescribes the prices for petroleum products as set forth in Schedule “A” effective on and after 12:01 a.m., July 15, 2016.

Dated at Halifax, Nova Scotia, this 14th day of July, 2016.

sgd: Bruce A. Kiley
Clerk of the Board

Summary Offence Tickets Regulations—amendment

Order dated July 26, 2016

Amendment to regulations made by the Attorney General and Minister of Justice pursuant to Section 8 of the *Summary Proceedings Act***Order****Made under Section 8 of Chapter 450
of the Revised Statutes of Nova Scotia, 1989,
the *Summary Proceedings Act***

I, Diana Whalen, Attorney General and Minister of Justice for the Province of Nova Scotia, pursuant to Section 8 of Chapter 450 of the Revised Statutes of Nova Scotia, 1989, the *Summary Proceedings Act*, effective on and after the date of this order, hereby

- (a) amend the *Summary Offence Tickets Regulations*, N.S. Reg. 281/2011, made by order of the Attorney General and Minister of Justice dated October 4, 2011, to designate certain offences under the Cape Breton Regional Municipality by-laws as summary offence ticket offences in the manner set forth in the attached Schedule “A”; and
- (b) order and direct that the penalty to be entered on a summons in respect of an offence set out in amendments to the schedules to the *Summary Offence Tickets Regulations*, N.S. Reg. 281/2011, as set forth in the attached Schedule “A”, is the out-of-court settlement amount listed in the out-of-court settlement column set out opposite the description for the offence, and includes the charge provided for in, and in accordance with, Sections 8 and 9 of the Act.

Dated and made July 26, 2016 at Halifax Regional Municipality, Province of Nova Scotia.

sgd: *Diana Whalen*
Honourable Diana Whalen
Attorney General and Minister of Justice

Schedule "A"

**Amendment to the *Summary Offence Tickets Regulations*
made by the Attorney General and Minister of Justice pursuant to Section 8
of Chapter 450 of the Revised Statutes of Nova Scotia, 1989,
the *Summary Proceedings Act***

Schedule M-1 of the *Summary Offence Tickets Regulations*, N.S. Reg. 281/2011, made by order of the Attorney General and Minister of Justice dated October 4, 2011, is amended by adding the following heading and items immediately after item 17 under the heading "Vendors and Traders of Goods By-law":

Wastewater Discharge By-law - W-100

1	Discharging into wastewater facilities sewage or wastewater (specify) that causes or may cause health or safety hazard	1(2)(a)	\$697.50
2	Discharging into wastewater facilities sewage or wastewater (specify) that causes or may cause obstruction or restriction of flow in wastewater facilities	1(2)(b)	\$697.50
3	Discharging into wastewater facilities sewage or wastewater (specify) that causes or may cause offensive odour to emanate from wastewater facilities	1(2)(c)	\$697.50
4	Discharging into wastewater facilities sewage or wastewater (specify) that causes or may cause damage to wastewater facilities	1(2)(d)	\$697.50

6	Discharging into wastewater facilities sewage or wastewater (specify) that causes or may cause restriction of beneficial use of sludge from municipal wastewater facilities	1(2)(f)	\$697.50
7	Discharging into wastewater facilities sewage or wastewater (specify) that causes sludge to violate Provincial or Federal law	1(2)(f)	\$697.50
8	Discharging into wastewater facilities sewage or wastewater (specify) that causes or may cause effluent from municipal wastewater facilities to violate Provincial or Federal law	1(2)(g)	\$697.50
9	Discharging into wastewater facilities sewage or wastewater (specify) with pH less than 6.0 or greater than 11.5 (specify)	1(3)(b)	\$697.50
10	Discharging into wastewater facilities sewage or wastewater (specify) with 2 or more separate liquid layers	1(3)(c)	\$697.50
11	Discharging into wastewater facilities sewage or wastewater (specify) with temperature greater than 60°C	1(3)(d)	\$697.50
12	Discharging into wastewater facilities sewage or wastewater (specify) containing combustible liquid	1(4)(a)	\$697.50
13	Discharging into wastewater facilities sewage or wastewater (specify) containing fuel	1(4)(b)	\$697.50

14	Discharging into wastewater facilities sewage or wastewater (specify) containing hauled sewage, wastewater or leachate (specify) without written permission	1(4)(c)	\$697.50
15	Discharging into wastewater facilities sewage or wastewater (specify) containing ignitable waste	1(4)(d)	\$697.50
16	Discharging into wastewater facilities sewage or wastewater (specify) containing biomedical waste	1(4)(e)	\$697.50
17	Discharging into wastewater facilities sewage or wastewater (specify) containing solid or viscous substance capable of causing obstruction (specify substance) to flow in sewer	1(4)(f)	\$697.50
18	Discharging into wastewater facilities sewage or wastewater (specify) containing detergent, surface-active agent or other substance that may cause excessive foaming in wastewater facilities	1(4)(g)	\$697.50
19	Discharging into wastewater facilities sewage or wastewater (specify) containing dye or colouring material that discolours wastewater facility or effluent	1(4)(h)	\$697.50
20	Discharging into wastewater facilities sewage or wastewater (specify) containing pathological waste	1(4)(i)	\$697.50
21	Discharging into wastewater facilities sewage or wastewater (specify) containing PCBs	1(4)(j)	\$697.50
22	Discharging into wastewater facilities sewage or wastewater (specify) containing pesticide	1(4)(k)	\$697.50
23	Discharging into wastewater facilities sewage or wastewater (specify) containing reactive material	1(4)(l)	\$697.50
24	Discharging into wastewater facilities sewage or wastewater (specify) containing radioactive substance	1(4)(m)	\$697.50
25	Discharging into wastewater facilities sewage or wastewater (specify) containing leachate without written permission	1(4)(n)	\$697.50
26	Discharging into wastewater facilities sewage or wastewater (specify) containing contaminant in excess of limit in Table 1 of by-law (specify)	1(5)	\$697.50
27	Discharging cooling or uncontaminated water to wastewater facilities without permission	1(7)	\$697.50
28	Discharging, depositing or causing or permitting discharge or deposit of matter that may interfere with storm sewer operation into storm sewer, watercourse or storm sewer connection (specify)	2(1)(a)	\$697.50
29	Discharging, depositing or causing or permitting discharge or deposit of matter that may obstruct or restrict storm sewer or flow into storm sewer, watercourse or storm sewer connection (specify)	2(1)(b)	\$697.50
30	Discharging, depositing or causing or permitting discharge or deposit of matter that may damage storm sewer into storm sewer, watercourse or storm sewer connection (specify)	2(1)(c)	\$697.50
31	Discharging, depositing or causing or permitting discharge or deposit of matter that may result in hazard or adverse impact (specify) into storm sewer, watercourse or storm sewer connection (specify)	2(1)(d)	\$697.50
32	Discharging, depositing or causing or permitting discharge or deposit of matter that may contravene approved discharge quality or quantity into storm sewer, watercourse or storm sewer connection (specify)	2(1)(e)	\$697.50

33	Discharging, depositing or causing or permitting discharge or deposit of matter that may have visible sheen, film or discolouration into storm sewer, watercourse or storm sewer connection (specify)	2(2)(a)	\$697.50
34	Discharging, depositing or causing or permitting discharge or deposit of matter that may have 2 or more separate layers into storm sewer, watercourse or storm sewer connection (specify)	2(2)(b)	\$697.50
35	Discharging, depositing or causing or permitting discharge or deposit of matter that may have pH less than 6.0 or greater than 9.5 (specify) into storm sewer, watercourse or storm sewer connection (specify)	2(2)(c)	\$697.50
36	Discharging, depositing or causing or permitting discharge or deposit of matter that may have temperature greater than 40°C into storm sewer, watercourse or storm sewer connection (specify)	2(2)(d)	\$697.50
37	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain hazardous substance into storm sewer, watercourse or storm sewer connection (specify)	2(3)(a)	\$697.50
38	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain blowdown water into storm sewer, watercourse or storm sewer connection (specify)	2(3)(b)	\$697.50
39	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain combustible liquid into storm sewer, watercourse or storm water connection (specify)	2(3)(c)	\$697.50
40	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain floating debris into storm sewer, watercourse or storm water connection (specify)	2(3)(d)	\$697.50
41	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain fuel into storm sewer, watercourse or storm water connection (specify)	2(3)(e)	\$697.50
42	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain hauled wastewater into storm sewer, watercourse or storm water connection (specify)	2(3)(g)	\$697.50
43	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain hauled waste into storm sewer, watercourse or storm water connection (specify)	2(3)(h)	\$697.50
44	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain ignitable waste into storm sewer, watercourse or storm water connection (specify)	2(3)(i)	\$697.50
45	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain pathological waste into storm sewer, watercourse or storm water connection (specify)	2(3)(j)	\$697.50
46	Discharging, depositing or causing or permitting discharge or deposit of matter that may contains PCBs into storm sewer, watercourse or storm water connection (specify)	2(3)(k)	\$697.50
47	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain pesticide into storm sewer, watercourse or storm water connection (specify)	2(3)(l)	\$697.50
48	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain reactive waste into storm sewer, watercourse or storm water connection (specify)	2(3)(m)	\$697.50

49	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain toxic substance into storm sewer, watercourse or storm water connection (specify)	2(3)(n)	\$697.50
50	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain raw wastewater into storm sewer, watercourse or storm water connection (specify)	2(3)(o)	\$697.50
51	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain treated wastewater into storm sewer, watercourse or storm water connection (specify)	2(3)(p)	\$697.50
52	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain waste radioactive prescribed substance into storm sewer, watercourse or storm water connection (specify)	2(3)(q)	\$697.50
53	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain substance from materials used in or produced from industrial process into storm sewer, watercourse or stormwater connection (specify)	2(3)(r)	\$697.50
54	Discharging, depositing or causing or permitting discharge or deposit of matter that may contain substance used in operation or maintenance of industrial site into storm sewer, watercourse or stormwater connection (specify)	2(3)(s)	\$697.50
55	Discharging, depositing or causing or permitting discharge or deposit of matter containing concentration of substance in excess of limits in Table 2 of by-law (specify) into storm sewer, watercourse or storm water connection (specify)	2(5)	\$697.50
56	Discharging or causing or permitting discharge or deposit of diluted wastewater into sanitary sewer, combined sewer, or storm sewer (specify)	3	\$697.50
57	Owner or operator (specify) of premises where food is cooked, processed or prepared failing to install, operate and properly maintain oil and grease interceptor in piping system that connects to sewer	4(2)	\$697.50
58	Owner or operator (specify) of premises where food is cooked, processed or prepared failing to annually provide schedule and record of maintenance for interceptor to Designated Wastewater Officer	4(4)	\$697.50
59	Owner or operator (specify) of premises where motor vehicles are repaired, lubricated or maintained failing to install oil and grease interceptor that prevents motor oil and lubricating grease from passing into drainage pipe connected to sewer	5(1)	\$697.50
60	Owner or operator (specify) of premises from which sediment may enter sewer failing to take necessary measures to prevent sediment from entering drain or sewer	5(2)	\$697.50
61	Failing to equip catch basin on private property with Goss Trap or equivalent	5(3)	\$697.50
62	Failing to install catch basin on private property in compliance with Nova Scotia Municipal Standards Specifications	5(3)	\$697.50
63	Owner or operator (specify) of premises from which dental amalgam may be discharged failing to install, operate and properly maintain dental amalgam separator in accordance with by-law (specify)	6(1)	\$697.50
64	Failing to install and maintain in continuous efficient operation traps or interceptors that are accessible for cleaning and inspection	7(3)	\$697.50

65	Owner or operator (specify) of establishment failing to provide maintenance schedule for and record of grease, oil or sediment interceptor or sand trap and other required information (specify) to Designated Wastewater Officer on request	7(5)	\$697.50
66	Owner or operator (specify) of establishment failing to permit inspection on request by Municipality	7(6)	\$697.50
67	Person responsible for or person having charge, management and control of (specify) spill to wastewater works failing to immediately notify and provide information on request to Municipality	8(1)	\$697.50
68	Person responsible for or person having charge, management and control of (specify) spill to wastewater works failing to provide report required by by-law to Municipality within 5 working days after spill	8(2)	\$697.50
69	Person responsible for or person having charge, management and control of (specify) spill to wastewater works failing to do everything reasonably possible to contain and clean up spill and contaminated residue, protect health and safety of citizens, minimize property damage, protect environment and restore area to pre-spill condition	8(3)	\$697.50
70	Owner or operator (specify) of commercial, institutional or industrial premises or multi-storey residential building (specify) failing to install and maintain in good repair maintenance access point or approved alternative in connection to wastewater works	9(1)	\$697.50
71	Failing to locate control service access on discharger's property	9(2)(a)	\$697.50
72	Failing to ensure control service access is accessible to municipality at all times	9(2)(c)	\$697.50
73	Failing to construct control service access to municipal standards	9(2)(d)	\$697.50
74	Discharger failing to monitor or sample discharge as required by Engineer or provide results following written notice by Engineer (specify)	12(1)	\$697.50
75	Owner or operator (specify) of industrial, commercial or institutional premises failing to monitor, analyze or report to Engineer results of monitoring program (specify) as required	14(1)	\$697.50
76	Industrial, commercial or institutional discharger (specify) discharging sewage, wastewater, cooling water, uncontaminated water or combination into wastewater facilities without first submitting completed Forms 1 and 2 to Engineer	15(1)	\$697.50
