

Technical Safety Act Implementation Schedule - subject to change

Phase 1 (Spring 2008 - Spring 2009)

The Act would come into force upon proclamation, immediately repealing the *Steam Boilers and Pressure Vessels Act* (including the unproclaimed Boilers and Pressure Vessels Act of 1993), and the *Crane Operators and Power Engineers Act*. The regulations under the current above-named Acts, would become regulations of the new Act upon proclamation of the Act.

The *Fuel Safety Regulations* under the *Fire Safety Act* would become regulations of the new Act. Amendments would be made to the *Fire Safety Act* to remove fuel safety provisions so that there is no duplication.

General regulations, and Ministerial regulations for fees and adoption of safety standards, will be newly created.

Phase 2 (Spring 2009 - Fall 2009)

Proclaim clauses of the new Act which repeal the *Amusement Devices Safety Act* and the *Elevators and Lifts Act*. The regulations under the aforementioned Acts would become regulations of the new Act upon proclamation of these clauses of the new Act.

Phase 3 (Fall 2009 - Fall 2010)

Proclaim clause of the new Act which repeals the *Electrical Installation and Inspection Act*. The regulations under the aforementioned Act would become regulations of the new Act upon proclamation of this clause of the new Act.
