Memorandum

TO: All interested parties

FROM: Dale C. Stewart,
Chief Inspector, Fuel Safety

DATE: May 27, 2008

Attached to this memo are Fuel Safety Bulletins numbered #2008-01 thru #2008-06. These are Bulletins which were formerly operating policies within the Fuel Safety Section, but need to be distributed in a more public venue.

As you can see, something new has been added to Fuel Safety. Many of these bulletins are specifically directed toward oil-burning equipment and the CSA B139 code.

It should be noted that this is the last mail-out of Fuel Safety Bulletins. From this date forward, these Bulletins will ONLY be available on the internet at;

<http://www.gov.ns.ca/lwd/fuelsafety/fuelbulletins.asp>
