

Our Activities

The Labour Relations Board recognizes that its stakeholders should be able to access accurate information about its activities. The following tables provide statistical summaries of the adjudicative activities of the Labour Relations Board and the Construction Industry Panel over a five year period ending with the 2007 - 08 fiscal year. They also summarize the activities attributable to the specific types of complaints and applications labour relations boards most commonly deal with. Please note that the statistics for a particular fiscal year's overview may include unusual cases that are not reflected in the topical area statistics.
