# **Forest Planning System**

Legislation Strategy **Policy** 

"Establish Goals & Priorities"

#### Acts:

Forests, Crown Land, Wilderness Protection, Endangered Species, Environment, Wildlife, etc.

**Natural Resource Strategy Code of Forest Practice Old Forest Policy** 

### **Strategic Level Planning**

Evaluating Scenarios that Balance Economic, Social & Environmental Values

"Establish Activity Targets"

(100 yr Horizon)

### **Resource and Biodiversity Analysis and Models**

- -Wildlife Habitat
- -Wildlife and Water Course Regulations
- -Ecosystem Targets
- -Endangered Species Areas
- -Old Growth
- -Wood supply
- -Sustainable Wildlife Harvest Levels
- -Protected Areas

## **Tactical Level Planning**

Spatially and Temporal Arranging Activity Targets on the Landscape

"Guide Operational Planning"

(25 yr Horizon)

**Ecological Land Classification Mapping (ELC) Ecological Landscape Analysis Reports (ELA) Species at Risk Recovery Plans Integrated Resource Management Zones** (C1, C2, C3)

**Habitat Landscape Modeling Framework** Wildlife Habitat Use Models

## **Operational Level Planning**

Developing Site-Specific Prescriptions for Implementation

"Application of Tactical Plan"

(1 to 5 yr Horizon)

### **Code of Forest Practice Guide Books**

- -Forest Management Guides
- -Biodiversity Stewardship Guides
- -Non-Timber Forest Products Guide -Best Management Practice Guides
- -Nutrient Budget Model

**Pre-Treatment Assessment Forest Ecosystem Classification Forest/Wildlife Guidelines** Regulations
