Furharvesters Report Form 2023–24

IMPORTANT: You are required to report by **April 15** even if you did not trap.

Report online at novascotia.ca/natr/harvests or submit this report to the DNRR office where licence was purchased.

Check this box if you held a licence but did not trap or snare Wildlife Resources Card number _____ / _____ / _____

Indicate number of sets, trap nights, and animals harvested by county below

Species	County					County					County				
	No. killed	No. set	Nights trapped	Kept ¹	Turned in ²	No. killed	No. set	Nights trapped	Kept ¹	Turned in ²	No. killed	No. set	Nights trapped	Kept ¹	Turned in ²
Beaver															
Muskrat															
Otter															
Mink															
Bobcat ⁴															
Fox															
Raccoon															
Skunk															
Squirrel															
Weasel															
Coyote															
Lynx ³															
Marten ³															
Fisher ⁴															
Other (specify)															

"No. set" means the number of traps/snares set. If you don't have exact numbers, give closest approximation. The same applies to number of **"Nights trapped."** ***This data is important to help manage furbearers in Nova Scotia, and biologists to calculate trap nights and catch effort.***

- ¹ **"Kept"**: furbearers/pelts you wish to retain in your possession after April 15
- ² **"Turned in"**: pelts, over-the-bag limit, or accidentally caught and turned into NRR office
- ³ Lynx and marten are completely protected in Nova Scotia. Any accidentally harvested (or other species captured in excess of bag limits) and which could not be released must be reported on the Accidental Harvest Form and turned into a local NRR office.
- ⁴ Bobcat and fisher are mandatory carcass submissions this year.

From your observations, how plentiful the following are in the county you spent the most time trapping/snaring
 N No opinion 0 None 1 Low 2 Medium 3 High 4 Very high

Beaver	Raccoon	Marten	
Muskrat	Skunk	Fisher	
Otter	Squirrel	Black Bear
