

Round Table on Environment and Sustainable Prosperity

The Round Table on Environment and Sustainable Prosperity will advise Government on the broad issues of environment and sustainable prosperity, by considering the integration of environmental sustainability with social prosperity. The Round Table will be tasked with bringing stakeholder's perspectives to the guiding principles reflected in the *Environment Act*, as well as those articulated in the Green Plan "Towards a Sustainable Environment", the Opportunities for Sustainable Prosperity strategy, the Social Prosperity Framework and in the Better Regulation Initiative. This advice will contribute to informed decision-making on environmental policy, priorities and goals that affect the well-being of Nova Scotians, and the future economic and environmental sustainability of *The New Nova Scotia*.

Membership

Raymond Côté (Chairperson)
