

## WIND / HYDRO ENERGY PROJECT

### *Environmental Assessment Registration and Project Description - ERRATA*

Please note that the following correction should be made to the last sentence in the fourth paragraph of Section 2.1.2.2, Connection to the Grid:

The power plant housing these two hydro turbine generator/pumps will be located within approximately 500 m of the interconnection substation.

NB: It is the distance that is incorrect. It should be 500 m not 3.5 km.
