

NOTICE

Registration of Undertaking for Environmental Assessment ENVIRONMENT ACT

This is to advise that on March 10, 2021, Pieridae Energy (Canada) Ltd registered the proposed Realignment of Marine Drive (Hwy 316) for environmental assessment, in accordance with Part IV of the Environment Act.

The purpose of the proposed undertaking is to permanently realign approximately 3.5 km of the existing Marine Drive (Hwy 316) around the proposed Goldboro LNG Project site, located in Goldboro Industrial Park, Guysborough County, Nova Scotia. The realigned new Marine Drive will be a 6 km, two-lane public road. The realignment is proposed to increase public safety and provide Pieridae with unobstructed access to planned marine infrastructure. The realignment will be built by Pieridae to the standards of Nova Scotia Transportation and Active Transit (formerly Transportation and Infrastructure Renewal - NSTIR). Upon completion, the road will be handed over to Transportation and Active Transit, who will own and operate it. Residences along the existing Marine Drive will continue to have access to their properties via the existing road. Construction of the proposed realignment is scheduled to commence in the fall of 2021.
