

NOTICE

Registration of Undertaking for Environmental Assessment ENVIRONMENT ACT

This is to advise that on May 1, 2008, Amherst Wind Power LP registered a wind energy project for environmental assessment, in accordance with Part IV of the *Environment Act*.

The purpose of the proposed undertaking is to construct and operate a 30 megawatt (MW) wind energy facility in Cumberland County, near the town of Amherst, Nova Scotia. The proposed Project will commence upon obtaining applicable approvals and authorizations, likely in the summer of 2008. The scope of the proposed Project will involve 20, 1.5 MW wind turbine generators on 437 hectares of lands. However, it should be noted that the turbines and ancillary facilities for the proposed wind farm will occupy only a small portion of the land base within the Project area. The estimated Project lifespan is approximately 25 years. Construction for the proposed Project will take approximately 14 months to complete.

Copies of the environmental assessment registration information may be examined at the following locations:
