- This property was acquired in 2009 for addition to Bonnet Lake Barrens Wilderness Area.
- The property borders Jamieson Lake, near the geographic centre of the wilderness area. It includes about 300 meters of lakeshore.
- Adding this property to Bonnet Lake Barrens Wilderness Area will help protect Jamieson Lake and the surrounding, provincially significant coastal barrens.
- Adding this property will also help protect the wild character of the "wilderness" portion of the #5 Radar Unit Interpretive Hiking Trail, and will simplify boundaries and management of the wilderness area.
