

## **Scotland Creek Addition**

**COUNTY:** Shelburne

**WILDERNESS AREA:** Tobeatic

**TOTAL AREA:** 19.2 hectares (47.44 acres)

**PID:** 80006133

---

### **DESCRIPTION:**

- The property was acquired through a private sale in 2009 for addition to Tobeatic Wilderness Area.
- This wetland-dominated parcel features scenic river vistas on both the Roseway River and Scotland Creek.
- The area includes mature red maple flood-plain forest, along with fen bogs that provide habitat for a rare moss found along the Roseway River.
- The property borders part of a provincially-significant wilderness canoe route.
- Adding this property to Tobeatic Wilderness Area will protect wilderness features and recreation opportunities of this southern gateway of the wilderness area. This will also simplify boundaries of the wilderness area, and will support area management and enforcement.
