Fax: (902) 679-6186

Septage Treatment Facility Operator Assistance Program – 2007/08

6) Identify the service area and percentage of population served by this facility.

---

---

---

7) How will the project be integrated with existing septage facilities?

---

---

---

---

---

---

---

---

---

---

---

---

8) Provide the current volume and estimate the annual amount of liquid waste processed by this facility?

---

---

---

---

---

9) How will residuals be managed?

---

---

---

---

---

Septage Treatment Facility Operator Assistance Program – 2007/08

10) If applicable, how will the project be sustained beyond the approved program-funding period?

---

---

---

---

---

---

---

---

---

---

---

---

11) What is the proposed project implementation schedule?

---

---

---

---

---

---

12) Are there project milestones (2 to 3 only) that could be used to trigger payment of any approved program funding? If so, please list.

---

---

---

---

---

---

13) Supply business planning process that outlines a practical and financial case for funding. (Provide *Letter of Credit* from financial institution)

---

---

---

---

---

---

**PART C**  
**PROJECT BUDGET SUMMARY**

**Please complete the following budget summary. If necessary, to fully explain the project, a detailed budget should be provided in the Project Description (PART B).**

Septage Treatment Facility Operator Assistance Program – 2007/08

<b>PROJECT COSTS</b>	<b>AMOUNT</b>
Engineering Services	
Monitoring Well Construction	
Supernatant Discharge/Treatment	
Sludge Treatment/Disposal	
Lagoon Upgrade - Berms/Liners	
Security	
New Technology	
Contracted Services (please specify)	
Total Capital Costs (please specify): attach specifications	
In-kind contributions (please specify)	
Other (please specify)	
<b>GROSS PROJECT COST</b>	
Other sources of financing:	
Municipal	
Regional	
Other (provide detail)	
<b>TOTAL PROJECT FINANCING</b>	
<b>NET PROJECT COST</b>	
<b>AMOUNT REQUESTED FROM NSEL</b>	

**Approved program funding will amount to a percentage of the total eligible costs, with the maximum program contribution not greater than 50% of total costs, unless specifically approved by NSEL.**

**NOTE: See attached 2007/08 Program Guidelines for additional information.**

# Septage Treatment Facility Operator Assistance Program – 2007/08

## Program Guidelines

### *Program Purpose*

A primary objective of the *Septage Treatment Facility Operator Assistance Program* is to provide financial assistance to upgrade privately and municipally operated septage treatment facilities to meet provincial standards and to assist in the acquisition and development of alternative technologies to manage septage waste.

### *Eligible Projects*

Eligible Projects under this program include:

- Capital projects designed to bring existing septage treatment facilities into compliance with the 2005 *Guidelines for the Handling, Treatment and Disposal of Septage*.
- Projects that will install new processes or technologies designed to reduce environmental impacts or increase treatment efficiency.
- Engineering studies required to document technical viability of existing facilities and to prepare detailed design of modifications.

### *Eligible Applicants*

Eligible Applicants include owners/operators of existing private and municipal septage treatment facilities.

### *Level of Funding Assistance*

Eligible Projects and Applicants can access a grant program that will provide up to 50% of cost to a maximum of \$100,000 for new technologies on septage treatment systems, including engineering studies, environmental monitoring requirements, construction costs and sludge treatment.

Operators can access a grant program that will provide up to 50% of costs to a maximum of \$50,000 for improvements to their existing septage treatment facility, including engineering studies, environmental monitoring requirements, construction costs and sludge treatment and new technologies.
