## **Errors & Omissions Notice**

### **Re: Judgment Renewals and Judgment expiry dates**

It has come to the attention of the Registrar General of Land Titles, that some judgment renewals which were recorded at the LRO from January 1, 2008 to August 19, 2009 may have caused a gap in some judgment searches. While the renewal was viewable in the judgment roll from the date of its recording and contained a copy of the original judgment, the expiry date on the original judgment was not extended based on the date of the renewal. The original judgment was viewable only as an attachment to the renewal document and therefore the judgment would not have been noted in a title search if the debtor's name was searched only for the period of time that they owned their property. This problem has now been rectified as renewals will no longer cause original judgments to be removed from the index and any references in the index to the original judgments have been restored. Also, an instrument association will be made to any judgment where a renewal has been recorded.

Any questions concerning the above should be directed to the RG's office at:  
[RGLandTitles@gov.ns.ca](mailto:RGLandTitles@gov.ns.ca) .
