

NOTES

The Department will supply and install Trail Crossing Signs for either motorized or non-motorized use trails as shown on the signage plan approved by the District Traffic Supervisor.

*WC-27 Sign to be used where motorized vehicles are **permitted** on the trail.

WC-46 Sign is to be used where motorized vehicles are **not permitted on the trail

The trail developer is responsible for the provision, installation, inspection and maintenance of all other signs, bollards, barricades or gates required as shown on the approved signage plan.
