OVERVIEW

Since 1936, the Fisheries and Aquaculture Loan Board has served the province and the fishing industry by providing long-term stable development funding.

The Loan Board operates under the authority of the *Fisheries and Coastal Resources Act*. This Act emphasizes the coastal community development priority of the Board's operations and fosters the growth and development of the economy in our coastal communities as it relates to the harvesting and aquaculture sectors of the fishing industry in Nova Scotia.

During the year the Fisheries and Aquaculture Loan Board focused on its mission statement which is as follows:

"To serve, develop and optimize the harvesting segment of the Nova Scotia fishing and aquaculture industries, for the betterment of our coastal communities and the province as a whole."

This report summarizes the activities, accomplishments and outcomes of the previous fiscal year by reflecting on the organization's 2012-2013 Business Plan. The report is organized so that readers may understand the Loan Board's accomplishments in line with our Business Plan.
